

TOTTECH Clinical Services - Hospital Brochure

Enterprise Hospital + IVF + Revenue Operating System

Generated: 2026-06-10T03:40:31.504Z

Positioning

TOTTECH Clinical Services is a multi-tenant SaaS platform for hospitals, IVF centers, diagnostics, pharmacy, and multi-branch healthcare groups. It combines patient operations, clinical workflows, integrated billing, patient timeline, hospital branding, and governance in one platform.

Best-Fit Customers

Small hospitals, IVF centers, diagnostic centers, day-care hospitals, and growing multi-speciality clinics that need enterprise-grade workflows without enterprise-grade cost.

Core Differentiators

Multi-tenant architecture, IVF included from day one, hospital-specific branding, complete patient timeline, integrated billing and receipts, normalized clinical data model, PDF documents with QR verification, and faster deployment.

Demo Tenant

TOTTECH Multi-Speciality Hospital is populated with realistic users, doctors, patients, consultations, lab reports, radiology reports, medicines, admissions, ICU cases, IVF cases, invoices, payments, and timeline events.

Why It Matters

Hospitals do not buy screens. They buy operational confidence. TOTTECH Clinical Services proves the patient journey from registration to consultation, lab, pharmacy, billing, documents, and executive visibility.
