

Pricing Plans

Draft commercial model for pilot discussions

Generated: 2026-06-10T03:40:31.504Z

Starter Clinic

For single-branch clinics and diagnostic centers. Includes patient registration, appointments, OP consultation, billing, pharmacy basics, reports, and branding.

Hospital Standard

For small hospitals. Adds IP, admissions, discharge, nursing, laboratory, radiology, inventory, insurance workflow, financial reports, and role governance.

IVF Enterprise

For fertility and IVF centers. Adds IVF cycle management, embryology, cryostorage, transfer tracking, IVF billing, outcome analytics, and patient timeline.

Multi-Branch Enterprise

For hospital chains. Adds multi-tenant/group controls, branch dashboards, subscription management, SaaS governance, integrations, backups, and priority support.

Pricing Note

Keep pilot pricing affordable, but charge for onboarding, data migration, WhatsApp/SMS usage, custom reports, integrations, and extra branches.
