

Version 1.0 Release Criteria

Pilot-readiness gate before approaching hospitals

Generated: 2026-06-10T03:40:31.504Z

Critical Workflow Gate

Patient registration, appointment, consultation, prescription, lab order/result, radiology, pharmacy, admission, billing, payment, PDF generation, and timeline must pass UAT.

Security Gate

No major security findings. Tenant isolation must prove Hospital A cannot view Hospital B patients, bills, reports, inventory, or users.

Finance Gate

Invoices, payments, receipts, refunds/credit notes, shift closing, daily collections, and reconciliation must match generated transactions.

Operations Gate

Backups and recovery must be tested. Demo environment must be ready. Role-specific permissions must not block daily work or expose sensitive data incorrectly.

Sales Gate

Brochure, pricing, feature comparison, implementation timeline, security document, demo script, screenshots, and PDFs must be ready before pilot outreach.
